Replacing an Altice One Mini

Before you start, press 7 and 9 simultaneously on your Altice One remote, then disconnect everything from your existing Mini.

1. BACK OF MINI
   Insert the SD card (included in the box) into the card slot on the back of the new Mini.

2. BACK OF MINI
   Connect the coaxial cable from your wall outlet to the “RF” port on the back of the Mini. Make sure the connection is finger tight.

3. BACK OF MINI
   Plug one end of the HDMI cable into the TV/OUT HDMI port on the back of the Mini and the other into one of the HDMI ports on the back of your TV.

4. TV INPUT
   Turn on your TV and make sure the input source matches the HDMI port you plugged the cable into in step 3.

5. Call 877.851.5652 to start the activation process and wait for a Customer Care Agent before you proceed.

6. FRONT OF MINI
   When you’ve reached an Agent, plug the Mini power cord into an electrical outlet.

7. BACK OF MINI
   Press and hold the power button on the front of the Mini and at the same time plug the other end of the power cord into the Mini.

8. Please wait...
   Release the power button when you see the “Software downloading” screen. Allow up to 10 minutes for your Mini to configure. It will turn on and off several times during the process.

9A. GATEWAY
   If you’re using your Mini with a Gateway, press and hold the WPS button on the front of your Gateway for 5 seconds then release to put it into pairing mode.

9B. ALTICE ONE
   If you’re using your Mini with Altice One, press the WPS button on the front of Altice One. You’ll see “WPS Pairing Mode” on the display when it’s in pairing mode.

10. OR
   Go to the Mini and press and hold the WPS button on the front for 10 seconds. The button will blink then turn solid white when the Mini is paired.

11. FRONT OF ALTICE ONE
   Wait a few minutes until you see the “Let’s Get Started” screen, then follow the on-screen instructions to complete the setup.

12. FRONT OF MINI
   Make sure to return your old Mini within 15 days to avoid being further billed. For instructions, visit optimum.net/return
